Portfolio: https://alinz07.github.io/t-linz-web-engineer/

Full-Stack Web Developer with a Certificate in Full Stack Coding from the University of Wisconsin-Milwaukee (May 2022) and a background in Compliance and spoken languages. Hoping to contribute to a sustainable company that cares about corporate-social responsibility and encourages team members to explore their passions for tech. In addition to my newly developed full-stack skills and enthusiasm for Python algorithms, I'm looking to leverage my strong problem-solving, communication, teamwork and leadership skills gained from leading a team of six auditors, professionally, and 300+ volunteers for American Cancer Society annual fundraisers.

Skills

- 14 years of Teamwork experience in a professional environment, 5 years in university-level group projects and 7 years in volunteer leadership
- Proficient in Microsoft Office Suite and Adobe Acrobat
- Organized, detail-oriented and great at time management
- Excellent written and oral communication in English. Conversationally proficient in Spanish. Minimal French.

Tech Stack

Technologies: Benchmark.js, Bootstrap, client and server-side APIs, Express.js, Foundation, Git, Handlebars.js, Heroku, jQuery, MongoDB Express.js React Node (MERN), Mongoose, Model-View-Controller (MVC) paradigm, NoSQL, Object-Oriented Programming (OOP), Object Relational Mapping (ORM), Progressive Web Applications (PWA), Sequelize, mySQL
Languages: CSS, HTML, JavaScript, Python

Projects

National Parks Info and Forecast
GitHub repo: https://github.com/p-fassbender/national-parks-info-and-weather
Link to deployed project: https://p-fassbender.github.io/national-parks-info-and-weather/
- Summary: Informational site for outdoor enthusiasts to make hiking plans
- Role: Front End Engineer
- Tools: HTML, CSS, JavaScript, jQuery, Foundation by Zurb

Bookworm
GitHub repo: https://github.com/Hmlessard/Bookworm
Link to deployed project: https://asgardians-bookworm.herokuapp.com/
- Summary: Social media site for avid readers to discuss and track their reading lists
- Role: Front and Back End Engineer
- Tools: HTML, CSS, Bootstrap, JavaScript, Bookcover web API, Handlebars.js, MySQL2, day.js, Node, Bcrypt, Express.js, Sequelize

Tony LINZ

Professional Experience

Internal Audit Manager for Moneytree, Inc. in Seattle, WA: Sept 2012 – Sept 2021
- Managed an Audit Team of 6, ensuring their personal and professional needs were met while helping them reach their full potential
- Consistently delivered a monthly Audit on-time and supported operations for 106 Branches
- Conduct on-site Compliance, safety and asset audits in 5 states on the west coast
- Analyze and track audit trends in order to make recommendations to executives for improving Compliance with state and federal lending regulations. Under my management we had 0 fines and 0 external audits that required enforcement actions
- Create and track company-wide Compliance training & internal Policies and Procedures
- Collaborate with the Executive Team to rebuild our Compliance Audit from the ground up

Operator for Hilton Madison Monona Terrace in Madison, WI: Dec 2007 – Aug 2012
- Coordinate Operations between the Front Desk, Housekeeping and Engineering
- Answer all inbound and in-house calls, requiring me to stay up-to-date on Community events, local businesses and nightlife
- Entertain and comfort guests from all walks of life, fulfill their needs, listen to and appropriately manage any concerns

Hobbies

I'm an advocate for balance and fill my free time with both productivity and leisure. I enjoy coding my own projects, reading and current events. Like most Pacific NorthWesterners and Wisconsinites, I appreciate nature and go on many hikes and walks. My friends and family love to play cards and board games like Cribbage, Lords of Waterdeep, and Five Crowns. For the last seven years, from January through September I dedicated hundreds of hours working with the American Cancer Society's Relay for Life, and September through January I dedicated too many Sundays watching the Green Bay Packers. In September 2021 I enrolled in the University of Wisconsin-Milwaukee Full-Stack Coding Bootcamp to pursue my tech passion and a career change.

Education

University of Wisconsin – Milwaukee: Extended Campus: Nov 2021 – May 2022
- **Full-stack Coding Certificate:** Rigorous 24-week program that focuses on front-end and back-end technologies as well as application performance

Seattle Central College: January 2018 – March 2018
- Introduction to Computer Programming: **Python**

University of Wisconsin – Madison: September 2007 – May 2012
- Bachelor of Arts in Spanish Language and Hispanic Culture, Business certificate coursework
